**ALL PARTS SUBJECT TO AVAILABILITY**

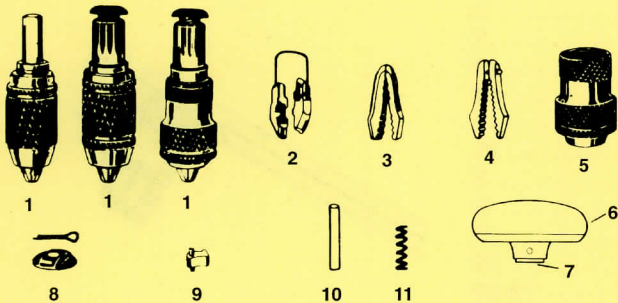

Stanley Tools, Division of The Stanley Works, New Britain, Connecticut 06053, U.S.A.

This catalog is designed to help owners of Stanley Tools identify and order interchangeable repair parts that can be easily replaced without the aid of special tools or equipment. We recommend that the owner make his own repairs whenever it is possible and thereby save, the expense of round trip transportation of tools in addition to the repair cost. **When ordering, be sure to specify the reference number and name.**

## Expansive Bits

## Replacement Springs for Tape Rules

The replacement of a spring motor is not recommended. However, if it is done, eye protection and work gloves should be worn. The edges of the spring can be sharp.

**Warning:** A partially or completely wound spring can be dangerous if allowed to unwind rapidly and unrestricted.

| 14. Spindle Washer .....      | 68-133-14        | 68-233-14        |

Sluggish operation due to lack of lubrication.

**Note:** Very often a screwdriver can be repaired by placing a few drops of oil through the shifter button slot.

# HAMMER SAFETY RULES

**1** Strike squarely — avoid glancing blows.

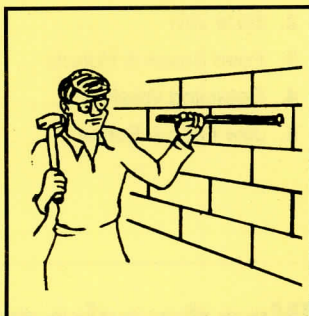

NAIL BLOW

**2** Never strike with side of hammer.

**3** Never strike one hammer with another.

**4** Always wear safety goggles when hammering.

**5** Never use hammer with loose or damaged handle.

**6** Discard hammer when face shows excessive wear, mushrooming, chipping, dents, etc.

**7** Select proper hammer. Use hammer of suitable size and weight for job. When striking chisels, punches, wedges, etc., hammer face should be 1/2" larger than head of struck tool. (For example: a 1/2" cold chisel requires at least a 1" hammer face.)

## FOR SAFETY & PERFORMANCE SELECT THE PROPER HAMMER

NAIL HAMMERS

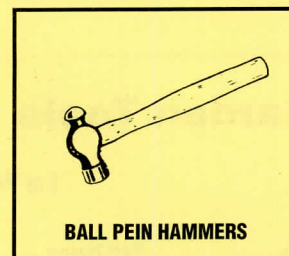

for common and finishing nails and nail sets.

**Not for:** masonry nails, cold chisels or other metal.

for cold chisels, punches, rivets and shaping metal.

BALL PEIN HAMMERS

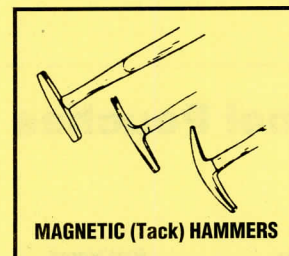

HAND DRILLING HAMMERS

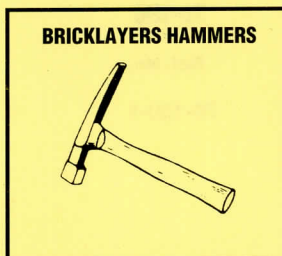

for cold chisels, brick chisels, star drills, hardened nails, etc.

for holding and driving tacks.

MAGNETIC (Tack) HAMMERS

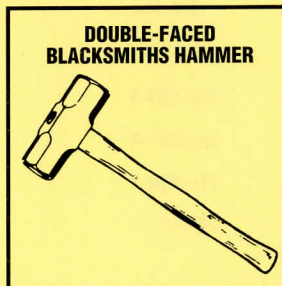

BRICKLAYERS HAMMERS

for setting and splitting bricks, tiles, concrete blocks. also for chipping mortar.

for use where steel hammers would mar surface.

DOUBLE-FACED  
BLACKSMITHS HAMMER

SOFT-FACE HAMMER  
& MALLETS

for spikes, stakes, cold chisels, hardened nails, etc.
